TOTAL RELAX IN PORTO ROTONDO
Porto Rotondo
THE PROPERTY

Villa Allegra is an unique property. While, generally, the most important villas in Porto Rotondo are located far from the harbor, not less than 3 km, Villa Allegra is the only one located at the middle of the district, with direct access to both the harbor and the center of the village.

The villa hosts eight private bedrooms, each one with its private bathroom, a large living room with dining room overlooking the porch and the garden, a large kitchen, a guest bathroom, a gym and fitness area. All rooms have satellite system and air conditioning.

2.000 square meters of land allows three large equipped lawns, a spa, a swimming pool and an artificial beach, rebuilt specifically to enjoy the holiday even in the days of mistral.

The entire property is equipped with an automatic watering system and very large water collecting tanks.

The property also has a large number of spacious covered porches and verandas to accommodate family and friends. About 200 people can dine in the carefully planned park.

The property is decorated with important sculptures made by various and renowned artists.
